Når du kommer ind på denne side, er du nødt til at udvælge hvilke priser, du gerne vil se:

Du vil gerne se **DK1 priser**, derfor trykker du på DK1 markeret med gul.

The screenshot shows the Nord Pool website interface for day-ahead electricity prices. The main heading is "Day-ahead prices" with an information icon. Below it, there's a note about Norwegian bidding areas. The interface includes a navigation menu on the left with categories like "QUICK LINKS", "FAVOURITES", "NORD POOL DAY-AHEAD", "NORD POOL INTRADAY", "NORD POOL UK", "REGULATING POWER", and "POWER SYSTEM DATA". The main content area has tabs for "ALL", "SYS", "NO", "SE", "FI", "DK", "EE", "LT", "LV", "AT", "BE", and "DK". Under "DK", there are sub-tabs for "SELECT ALL", "SYS", "SE1", "SE2", "SE3", "SE4", "FI", "DK1" (highlighted in yellow), "DK2", and "OSLO". There are also buttons for "BE", "DE-LU", "FR", and "NL", along with a "FURTHER DETAILS" dropdown. Below these are "TABLE" and "CHART" options. The "TABLE" view is active, showing a table of prices for "04-12-2020" under the "HOURLY" tab. The table has columns for time intervals and various bidding areas (SYS, SE1-4, FI, DK1, DK2). The price for DK1 is highlighted in yellow.

04-12-2020	SYS	SE1	SE2	SE3	SE4	FI	DK1	DK2
00 - 01	11,09	10,98	10,98	10,98	10,98	10,98	10,98	10,98
01 - 02	10,79	10,68	10,68	10,68	10,68	10,68	10,68	10,68

Herefter vil du gerne se priserne i DKK i stedet for EUR.

Priserne vises i MWh og kan desværre ikke laves om til kWh, så prisen skal divideres med 1000 for at få det i kWh.

De priser der vises er rene spotpriser. Videbæk Elhandel/Samstrøm afregner til spotprisen fra Nord Pool plus et tillæg på 0,0613 kr/kWh inkl. Moms.
